

# Daily Detoxifying & Cleansing Masque

## New Nonconformist Concept for All Cleansers, Masques Or Scrubs

### Features

- Utilizes Proprietary Perofluorocarbons
- Advanced chemistry enables Perofluorocarbons to self foam, Activating an oxygenating vacuuming mechanism.
- Extracted from deep within the skin; oils, sebum and debris are pushed to the surface through innovative oxygenation and carried away in the foam.
- Detoxification, cleansing and oxygenation are all within the functions of this technology without the use of aggressive surfactants or manual manipulation.

### Benefits

- Gently deep cleans all skin types without harsh surfactants.
- Provides powerful oxygenation to quickly reveal fresh, new skin.
- Natural detoxification keeps skin healthy, and free of aging free radicals and environmental pollutants.
- Foam lifts contaminants away from skin and down the drain.

### Application

Squeeze a quarter size of the Daily Detoxifying & Cleansing Masque into the palm of your hand. With your middle and index fingertips gently sweep a thin layer of the product in an upward motion starting at the base of the neck and continuing up to the top of the forehead.

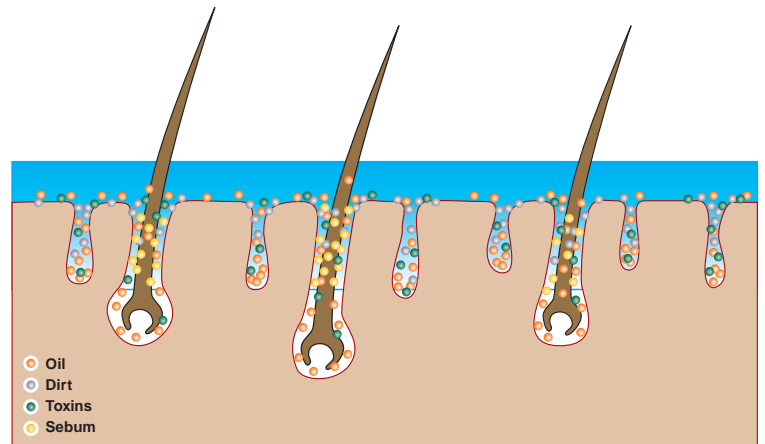

DO NOT RUB INTO THE SKIN.

Allow the product to foam on it's own for 3-5 minutes. Rinse with a clean, damp cloth.

**Cleansing Masque Stage One**  
Masque has just been applied to surface of skin.

**Cleansing Masque Stage Two**  
After a few moments masque begins to foam lifting skin contaminants.

**Cleansing Masque Stage Three**  
After the foam reaches oxidation capacity, contaminants become trapped in the foam and are raised to the surface, where they can be rinsed away.
